

Model	Speed Flex high speed fold-up door.
Wind Resistance (EN-13241-1+ A1)	Class 3
Structural Load (ASTM D 638/790)	0.6 kN/m2
Structure	Galvanized Steel
Intermediate beams	Galvanized Steel Pipe
Bottom beam	Galvanized Steel
Drum	Aluminum (No Welding process)
Water Tightness (EN 13241-1+A1)	Class2
Air Permability(EN 13241-1+A1)	Class 2
Side Guide	Galvanized Steel
Available height	8 mt
Available width	6 mt (one pieces)
Working Speed	90 cm/sec-(1.5 mt/sec with frequency Convertor)
Motor	1 pieces
Motor Power	1.5-3 Kw
Operation temperature	-35 °C +70°C
Bottom Safety Edge	Optional
Safety Photocell	Standard
Emergency Opening	Crank Manuel (counter balance –optional)
Side Insulation	Standard
Bottom Insulation	Standard
Coating	Galvanise Coating
SF Safety factor	>8
